

Setting Up SCLogic in Central Receiving

Article Number: 1015 | Last Updated: Thu, Feb 20, 2020 at 11:50 AM

Central Receiving & Mail Services Computer

This pc uses SCLogic software for shipping / receiving.

To configure the software use; Intra Management Console.

The computers name must be entered as the 'active' license.

To do this; choose the old pc name and 'deactivate' at the top of the screen.

Next to the deactivate button is the 'add new' button. You'll then need to type out the name of the pc. Finish up by highlighting the new name and choosing 'activate' at the top of the window

Open 'Intra Desktop Client' to run the program.
