What is the CRP program?

The CRP program provides IT supported equipment for permanent ongoing positions at UBCO. As the equipment ages IT is centrally funded to replace the equipment as necessary. Typically (though not guaranteed and is subject to funding) laptops will be replaced on a 3 year cycle and desktops on a 4 year cycle.

Faculty members are budget funded for their choice of a laptop or desktop. The CRP program will cover the full cost of certain equipment models; however, if you wish to upgrade the specifications of our fully cost-covered models or purchase an alternative model; CRP will cover the cost of our standard equipment while your department will cover the uplift.

Staff members are budget funded for a PC based desktop and 1 monitor. Additional peripherals (such as a secondary monitor) can be requested with the equipment but will need to be funded by your department. We understand your role may require a laptop. If your department agrees to cover the additional uplift cost to upgrade to a laptop, we certainly can accommodate this.

We purchase PC based hardware from Dell as well as Apple computers directly from Apple. If the specific piece of equipment you are looking for is not one of our standard offerings. Please contact us and we can do our best to assist or find a similar model based on your specifications.

I Am a New Employee to UBCO or have accepted a new position within UBCO.

I Am An Existing Employee Looking For a Renewal.

I Am a Department Administrator Being Asked To Do A Renewal Or Order Equipment For A New Employee.

I Understand the CRP Program And Have Been Asked To Complete The Equipment Selection Form.
