

## Genetec Security Center Software Installation Instructions - For Security Camera Software

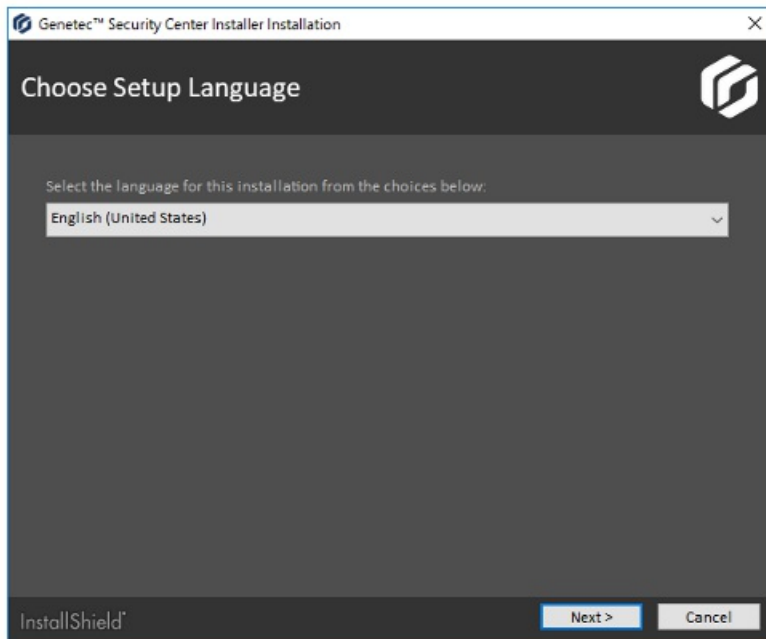

Article Number: 860 | Last Updated: Wed, Jun 6, 2018 at 1:42 PM

### Instructions for install

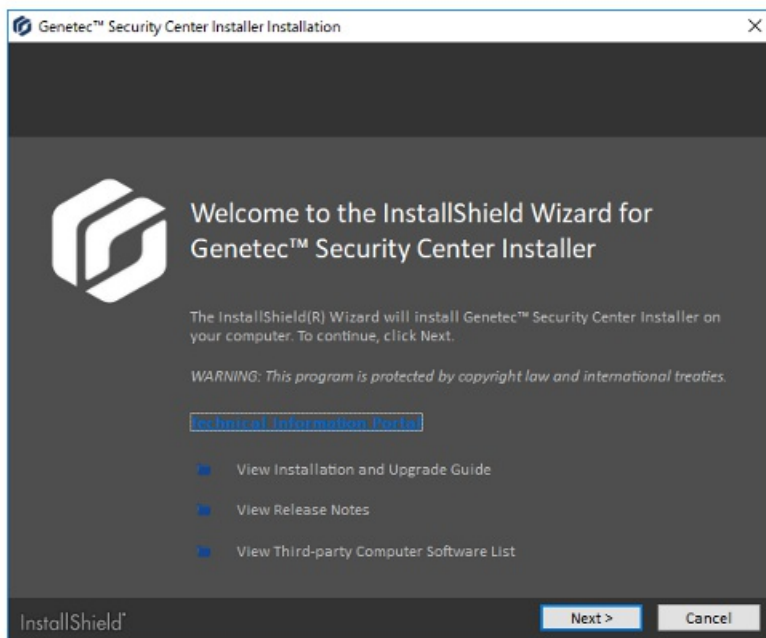

Browse To

<\\n13.ok.ubc.ca\sirvol\ITServices\Installs\PC\Genetec\Security Center v 5 7 SR2 b607 140 Full>

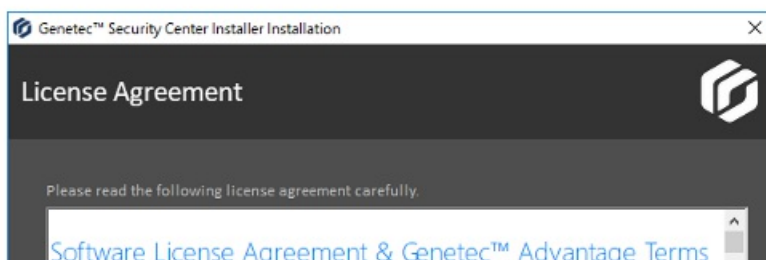

Run Setup.exe and then Choose the Setup Language...

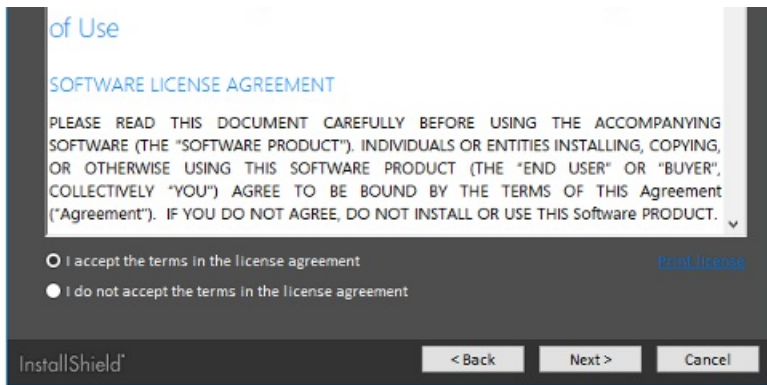

Hit Next to continue

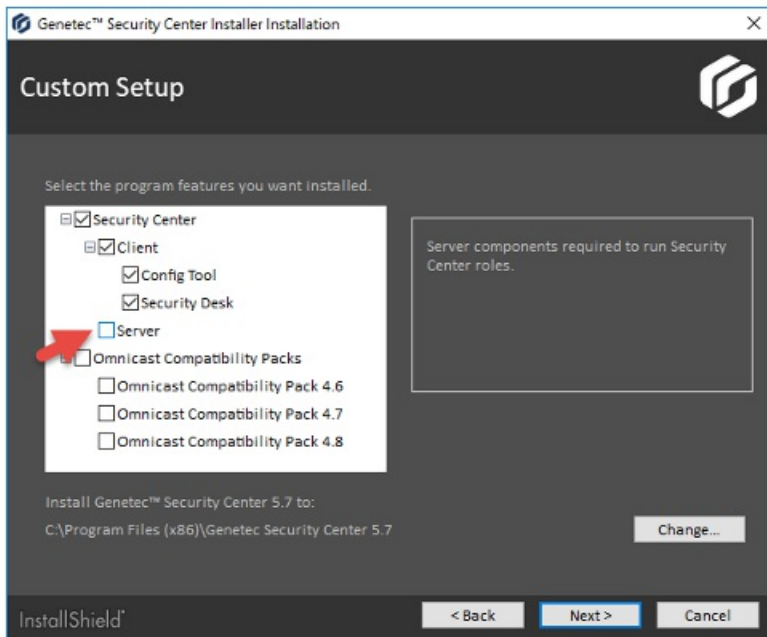

Thoroughly read the License Agreement and hit agree once you've read every word carefully.

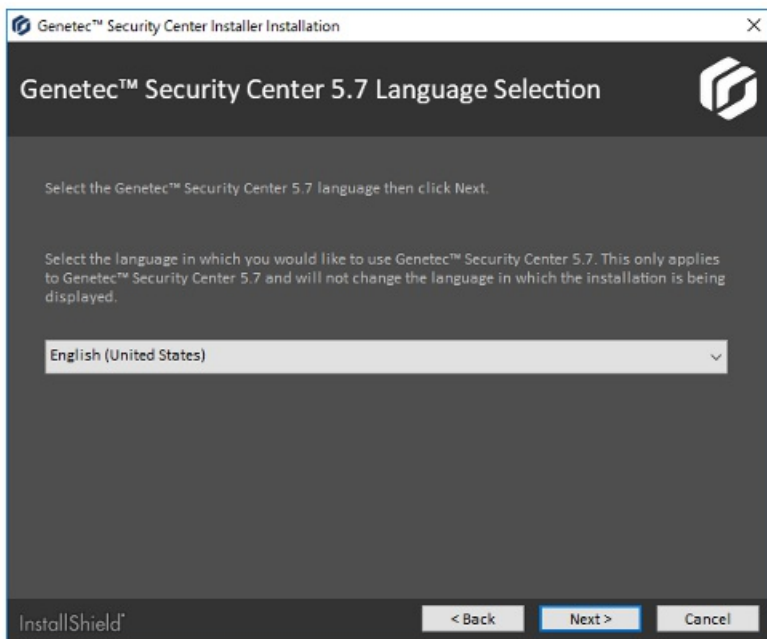

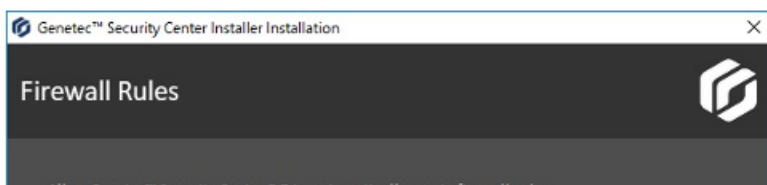

Check off Server as we don't want the Server component installed on the users workstation

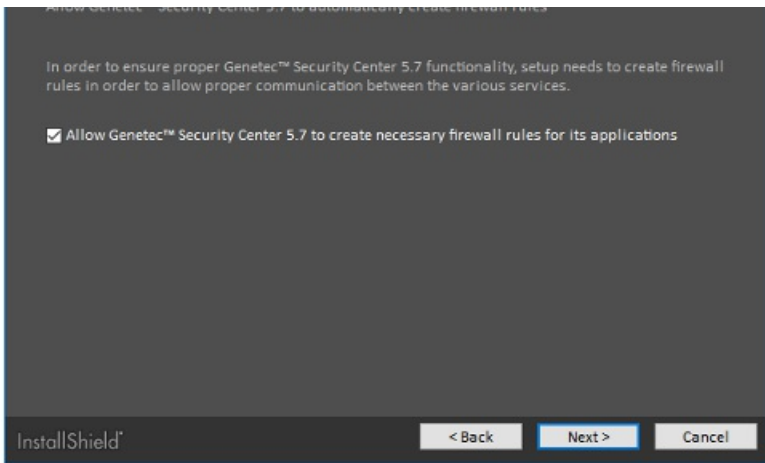

Choose the Language install

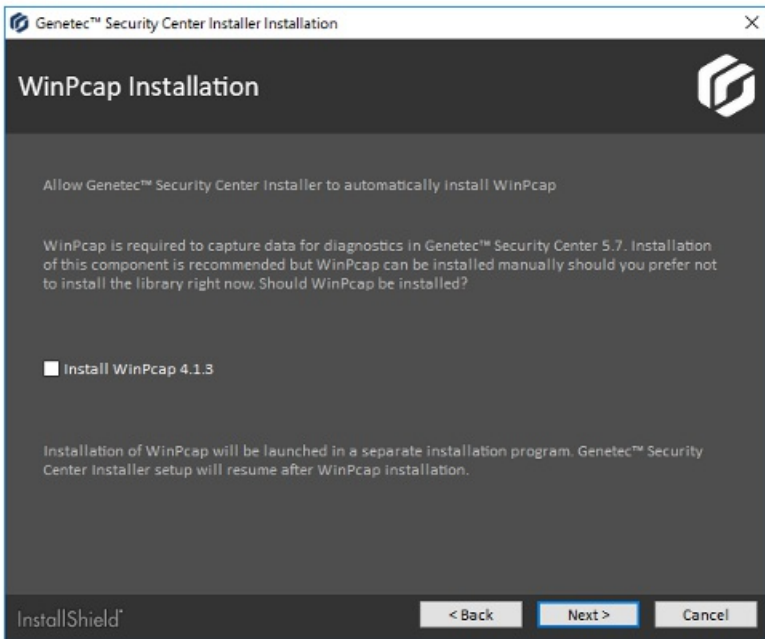

Allow Genetec to create the necessary firewall rules

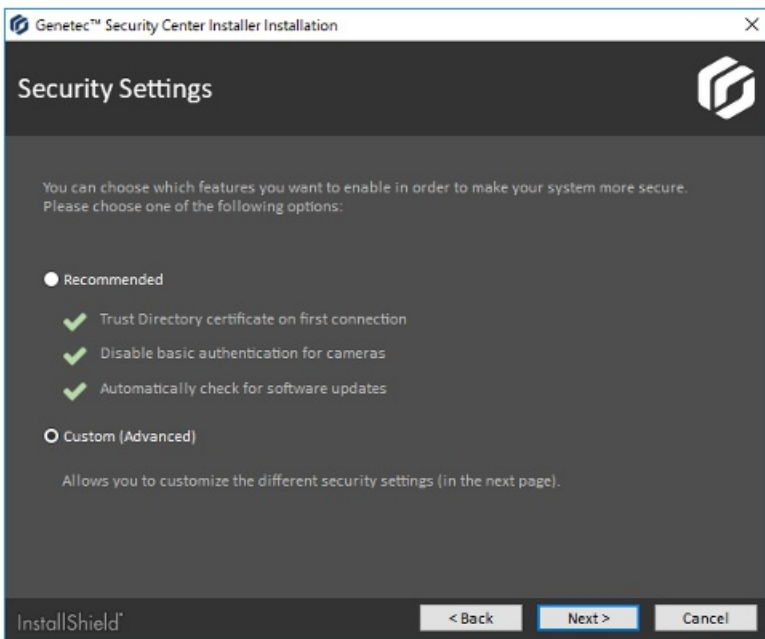

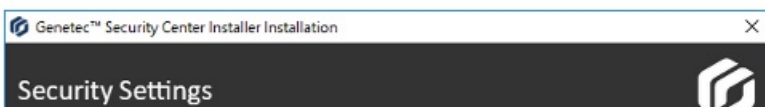

#### Don't install WinPcap

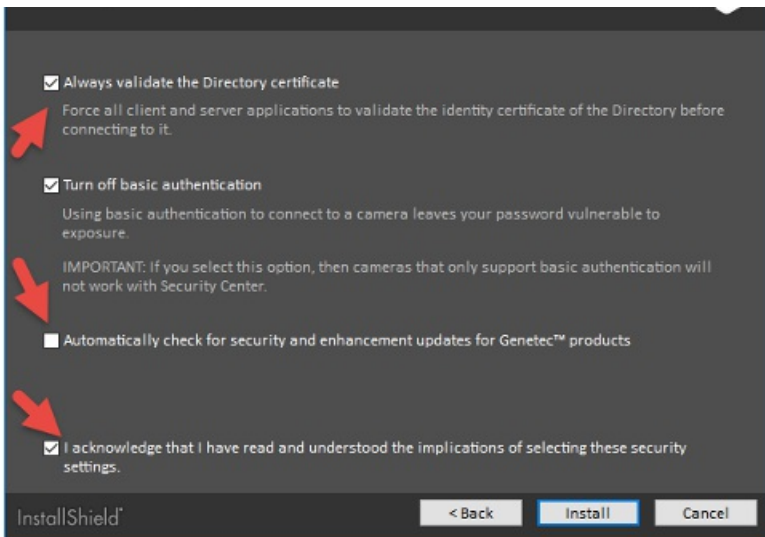

#### Choose Custom (Advanced) install

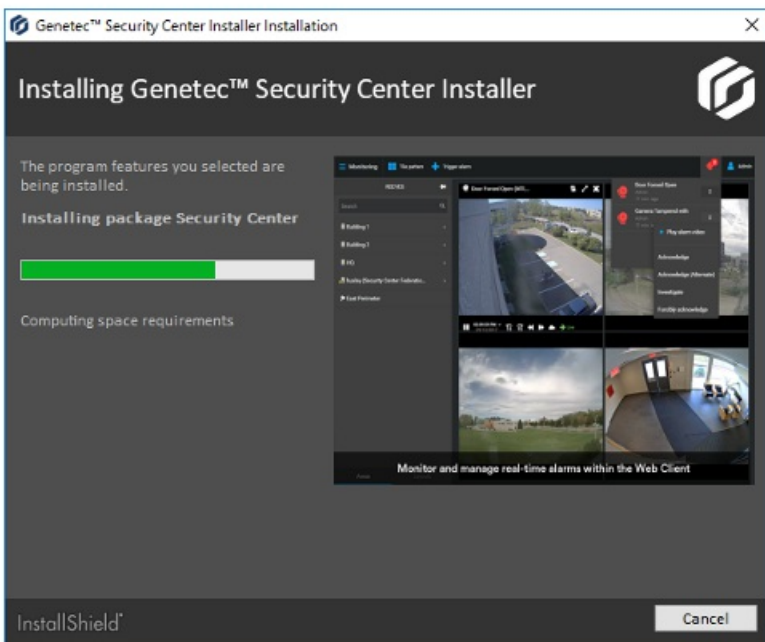

#### Match the selections to what I've shown below...

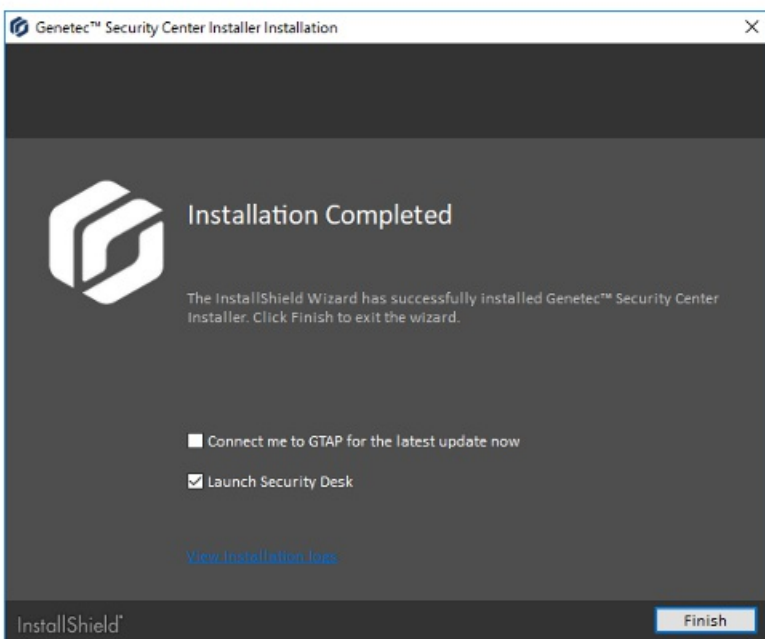

Patiently wait for the install to complete...

Launch Security Desk

Put in ubco-sgenp01.ead.ubc.ca for the Directory and accept the certificate.

Logon with day as the username and password just to test.
