

## Troubleshooting Da-Lite C model screen when it gets stuck down.

Article Number: 947 | Last Updated: Wed, Jan 23, 2019 at 9:20 AM

To recoil the screen when it's stuck down.

- 1) Pull down the spring extra 2 or 3 inches to the absolute bottom.
- 2) With a quick motion while your hand is still on the pull handle, help push it up ( be quick).

This should release the lock mechanism.
